THIRD INTERNATIONAL MATHART CONTEST

LOVE OUR WORLD: DRAW YOUR STORY WITH SHAPES AND NUMBERS.

CAMathories® Company is delighted to announce their third International MathArt Contest to raise young children's awareness of "Our World".

CAMathories® was founded by a team of professors, researchers and alumni from the University of Cambridge. Our aim is to make mathematics fun for children and to help them to love and understand mathematics in all its forms. All our books and apps also contain abundant notes for parents to teach mathematics to their children with ease and confidence.

ARTWORK REQUIREMENTS:

Theme: Love Our World: Draw Your Story with Shapes and Numbers.

1. The artwork needs to be drawn or made with at least 3 different shapes and at least one number.
2. The Contestants can use any colour. No restriction on the usage of colours.
3. Attach an information sheet with the artwork, the Contestants need to write down clearly (in black ink) the following on the information sheet. The information sheet can be found on the website of www.camathories.com
 - i. the names of at least three different shapes. If you have three or more than three different shapes, name three different shapes only.
 - ii. the number of sides each shape (you named) has.
 - iii. The number of corners each shape (you named) has.
 - iv. The numeral used in the drawing.

No purchase is necessary to enter the Contest. Our Contest welcomes residents from the USA, the UK, India, Hong Kong, China, and other countries. The entry to the Contest will void where prohibited by individual state law and national law. Residents from other countries are welcome as long as the laws of their countries allow our Contest as such. Entry details continue on page 3.

The Contestant needs to write his/her name and country and age at the top right corner of the artwork itself.

Artwork materials: The artwork can be drawn or made on a sheet of paper by hand, pencils, crayons, colour wooden pencils, or by any organic and inorganic materials (2D or 3D) that the children can think of, and it can also be drawn by a digital pen on a digital drawing pad.

To learn more about shapes, including sides and corners, you can refer to CAMathories' free Ebooks, Goldilocks, and "CAMathories First International MathArt Contest Ebook". They are all for free downloads on GooglePlay or Google Books. You can also take ask if your school, local library or book stores have a paperback one. CAMathories books come in English and multiple bilingual versions: English/Spanish, English/Modern Chinese & Traditional Chinese, English/French, English/Japanese, English/Hindi. Alternatively, signup at www.camathories.com to be a CAMathories™ premium member to play math games to learn more about shapes.
